Gold Coast Designer Wins Prestigious Award

Gold Coast interior designer and renowned glass artist, Lisa de Boer, has won the prestigious title of Best Australian Bathroom Design in the 2023 (TIDA) Trends Ideas Interior Design Award for her artistic 'CORAL' themed bathroom.

The charismatic designer is known for her bespoke, one-of-a-kind interiors featuring de Boer's signature hand-painted glass art. The winning CORAL bathroom was inspired by her client's passion for the underwater world. De Boer brought this theme to life through floor-to-ceiling matte glass panels featuring hand-painted Coral motifs in a soft, ethereal palette. "I wanted to create an immersive experience that transported my clients into an underwater wonderland" said de Boer. "The hand-painted glass panels allowed me to wrap the CORAL theme around the entire space, giving a sense of being enveloped by the ocean".

Beyond the artistry, the bathroom was designed to meet the technical requirements of wheelchair accessibility while maintaining a stylish aesthetic. Paul Taylor director of TrendsIdeas.com says "The CORAL ensuite is a master-class in creative bathroom design that brings together innovative use of materials, sculptural forms and an artful composition while catering to the ambulatory needs of the client".

De Boer incorporated a range of thoughtfully curated bespoke bathroom fixtures and innovative lighting design to complement the CORAL theme. "Artistic design should be for everyone," said de Boer. "I'm passionate about creating spaces that are beautiful, relaxing and highly functional".

Attracting clients who desire "something truly next level and out of the ordinary" Lisa de Boer Design + Studio services residential and commercial projects across Australia and internationally.

In addition to her 1st place win, another of de Boer's bathroom entries in the TIDA awards titled NORDIC FOREST was listed as a finalist and received a highly commended accolade.

Thrilled to receive the award de Boer wishes to thank her clients for allowing her to create something completely unique and to Trends Ideas and judging panel "I am honoured to receive this award and recognition, especially given the high caliber of entries from designers across Australia".
